

Jackson Worldwide Sales Agreement

Jackson Worldwide Policy Agreement Company Disclosure Jackson Worldwide is in the wholesale business of buying and selling Store stock, Overstock and Returned/Salvage goods to businesses. As we deal with major department stores that are selling us their Store Stock and Returns/Salvage, some items will be current stock and some will be last season or mixed. We try to manifest or describe items to the fullest, as we want you to be a solid customer!

Types of merchandise we currently carry:

Store Stock Store Stock represents first quality merchandise that has exceeded vendors aging standards and must be removed from the selling floor to clear the way for new merchandise. Store Stock lots can contain a small percentage of slightly distressed product (i.e. from fitting room damage)

Customer Returns The majority of this merchandise will vary from almost first quality (i.e. returned by a customer due to preference) to slightly distressed (i.e. broken zippers, missing a button, make-up stains, extreme wrinkling). Customer Return merchandise will be highly distressed. These are considered salvage from the stores we purchase them from of course.

Defective/Damages We try and give the best information to the problems that might arise above. Any verbal or written correspondence regarding the possibilities of working versus non-working percentages is an absolute estimation.
